

Team Name: sddec21-03

Team Members: Aidan Andreas, Ethan Evans, Max Farver, Nick Landon, Brad Zalasky

Report Period: March 15-26

Summary of Progress in this Period

The wireframes are being finalized currently. We have a meeting setup next week to meet with our client to discuss the user interface. During this meeting we will take any feedback from the client and then update the wireframes to finalize the design. Also, we have taken the feedback that was provided to us about our Design Document and are working to update these for the next version deadline.

Pending Issues

No issues have come up.

Plans for Upcoming Reporting Period

During the next two weeks we will begin to finalize our design and make sure the client is satisfied with the design. The user interface plays a large role in this application due to the client wanting intuitive navigation and accessibility. Also, as a group we are finalizing our design document and beginning to work on the next lighting talk.
