Team Name: sddec21-03
Team Members: Aidan Andreas, Ethan Evans, Max Farver, Nick Landon, Brad Zalasky
Report Period: March 30-April 12

Summary of Progress in this Period

During this time period we met with the client with our pending finalized wireframes. Our client was satisfied with the design, she also gave us new features she wanted to have implemented. The client also has a partner that would like to provide feedback on the wireframes. Once the feedback is provided to our team, we will begin to finalize the wireframes. We have also set a meeting with our advisor this next week to discuss our projects progress.

Pending Issues

No issues have come up.

Plans for Upcoming Reporting Period

Plan to finalize the wireframes and then begin working on documentation for the end of the semester. The team will take the feedback provided by the TA's on the design document to make all final corrections. After the design document is completed the team will begin to update the projects website and then start working on the presentation for the faculty board.
